

EDITORIAL

By Bulletin Editor PP Lioh Cheng Lim, PHF.

Welcome District Governor Dr. Ravee

Currently serving for the 9th time as Club Secretary and twice as Assistant Governor since joining Rotary in 1993, I am privilege to work with this man we called District Governor or simply DG and share my experience over the years on what to expect during this important visit. The District Governor, who must make an official visit to each club in the district, is never regarded as Rotary BIG Boss an “inspector general”. Rather, he visits as a helpful and friendly advisor to the club officers and to help strengthen the programs of Rotary.

DG is a very experienced Rotarian who generously devotes a year to the volunteer task of leadership. He has a wealth of knowledge about current Rotary programs, purposes, policies and goals and is a person of recognized high standing in his profession, community and Rotary club. DG performs a host of specific duties to assure that the quality of Rotary does not falter in the district, and is responsible to promote and implement all programs and activities of the Rotary International President and the RI Board of Directors. The District Governor is truly a prime example of Service Above Self performing a labour of love.

Tonight, we welcome DG Dr. Ravee and AG Dr. Vijaya to our club on the occasion of District Governor’s Official Visit to RC Tampin.

JANUARY IS ROTARY AWARENESS MONTH

Your Weekly Dose of ROTARY INFORMATION

OUR CLUB'S HISTORY IN BRIEF

The Rotary Club of Tampin existed in spirit as early as 1960 when a few local service orientated leaders from the government, commerce and professionals residing in Tampin mooted the idea of establishing the first service club to promote community service.

Our founder Chartered President, a service minded doctor serving the local community at that time, the late **Dr. Haji Sulaiman** was instrumental in garnering support from the pioneering members and having the club chartered by Rotary international on **26th April 1961**. From then on, the club has been serving the community for the past 50 years till now and we are still going stronger with each passing years.

Currently, we have an active membership of 21 ranging from the oldest member at the age of 69 to the youngest member at 37. With this special blend of experience and youth, our club continues to serve and has gone far in reaching out to fulfill the changing needs of our community. Can you name the oldest and youngest Rotarian in our club at present?

Our club banner depicts a microwave station on top of Tampin Hill, which is the most prominent landmark when approaching Tampin. The graphic rubber trees and padi plants around the Rotary Wheel best describe the location of Tampin being surrounded by outlying rural areas of rubber plantation and padi fields as the main agricultural economic activity during the nineteen sixties.
